## SUMMARY

Seeking a challenging role in a reputable organization where I can integrate my technical expertise and Creative problem-solving abilities to support growth and profitability.

## SKILLS

**Programming Languages**: Java script, Java, Python, C, C++.

**Frameworks and Libraries**: Angular, React JS, React Native, Visualiser, UXP.

**Database Management:** MySQL (DBeaver, MSSql), postgresql.

**Version Control**: Git, GitHub, Bitbucket, Tortoise Git, Tortoise, Sourcetree, Git GUI.

**Management Tools**: JIRA (Corporate, R&D).

**Languages:** Telugu, English, Hindi.

## PROFESSIONAL EXPERIENCE

**Temenos, Banglore**                                                        Dec 2021 - Present
Associate Product Engineer

- Worked as a UI developer for Temenos Infinity Digital Banking Application, Infinity Spotlight and Wealth suite.

- Developed and added new UI components and integrated them with the APIs to increase the performance to the existing application.

- Developed new, efficient, and well-tested code for both Web and mobile applications for Infinity and Spotlight.

- Worked on object services and integration services in Quantum fabric which is a middleware in which we can configure apps with services and publish them to a developer environment.

- Resolved Jira tickets with comprehensive bug fixes by maintaining the reopen count as low as possible.

- Worked in maintenance for Mirabaud, CAIXA and Eurobank in Wealth Suite.

- Knowledge in Product Development life cycle. Used Visualizer IDE and Visual studio code IDE for development.

- Utilized Eclipse, Bitbucket, JIRA, SQL Developer, PCloudy, putty, WinSCP, DBeaver and debugging tools to manage code and collaborate with team members.

## PROJECTS

**CHATBASE (Chat App)**

- A responsive application for friends and family to chat and transfer images in real time.

- Technologies used: React Native, Expo, Firebase, Java script, HTML, CSS.

**PURPLECART (Add Items to cart)**

- An Application to add all your items into your cart to not miss anything.

- Technologies used: Javascript, HTML, CSS, Firebase.

**KNOWTHESHOW (Move review management system)**

- A webpage to know all about the movie which you are planning to watch.

- Technologies used: Angular, Java, Spring, Bootstrap, java script, HTML, CSS.

## ACCOMPLISHMENTS

- Successfully managed to close all my developments and Bugs on the mentioned time and received multiple appreciations and T-STAR Awards as an applause.

## EDUCATION

**Bachelor of technology, Computer Science and Engineering**                    June 2017 – July 2021
GITAM Deemed to be University
